TOPIC 1: What is Happening in Our Schools

Public funded government schools in our county and throughout the state are introducing Marxist theories and racism into the agenda and classroom practices at all grade levels. One of the patriot warriors fighting this is Mari Barke, President of the Orange County Board of Education. She has fought back against this destructive movement in her schools and has brought awareness and energy to this fight in presentations to parents via educational seminars across the country.

We are excited to have Dr. Jeffrey Barke, a board-certified primary care physician in private practice for over 25 years and a founding member of America's Frontline Doctors.
